EDUCATION

UNIVERSITY OF MICHIGAN

Bachelor of Science

Ann Arbor, MI

Expected May 2028

Major: Computer Science

Cumulative GPA: 3.708 (Dean's List Fall 2024, Winter 2025, Fall 2025, Winter 2026)

Relevant Coursework: User Interface Development | Data Structures and Algorithms | Software Engineering | Discrete Mathematics | Programming and Introductory Data Structures | Intro to Computers and Programming

TECHNICAL SKILLS

Skills: Data Structures, Algorithms, C++, Python, JavaScript, Logic, Git, Object Oriented Programming, React, FastAPI, HTML/CSS

WORK EXPERIENCE

Tech Developer Intern

Remote

SEO Tech Developer First-Year Academy

February 2025 – August 2025

- Completed 70+ hours of rigorous computer science and software engineering training focused on data structures, Python/Pygame, and game development.
- Gained software development skills by working on a team to design, test, and implement a standalone desktop game application using Python (Pygame).
- Participated in long-term career preparation and mentorship programs to develop professional skills.

Data Science Intern

Washington, D.C.

Georgetown Lombardi Comprehensive Cancer Center

June 2023 – August 2023

- Implemented and executed metabolomics data analyses on METLIN and XCMS databases, reducing processing time by 50% and optimizing accuracy of results, which led to the identification of 2 potential biomarkers for further study.
- Synthesized key learnings from 10 oncology summer seminars to create an educational resource, reaching 8 members of the Georgetown cancer research community.
- Facilitated weekly progress updates to Dr. Cheema, Director of Cheema Lab, and fellow researchers, leading to improvements in research protocols and an increase in lab efficiency.

Software & Data Science Intern

Washington, D.C.

OmicsCraft LLC

June 2022 – August 2022

- Contributed to the development of AI-powered platforms with bioinformatics researchers for metabolomics and multi-omics.
- Conducted extensive software testing on 3 new toolkits, identifying 2 critical bugs and improving toolkit accuracy.
- Assisted with the website evaluation process, producing comprehensive user reports that guided a redesign of 2 products.

PROJECTS

SOCCERNET

- Implemented advanced AI algorithms in Python to process real-time video data from FIFA matches, extracting actionable insights on player performance and game dynamics.
- Employed machine learning algorithms to process match footage, extracting detailed statistics on player and referee performance to enhance tactical analysis and decision-making.

DODGE THE FALLING BLOCKS

- Created a multi-stage single-player desktop game using Python (Pygame), where a player moves to avoid falling objects that progressively speed up over time, with escalating game stages and a point system.
- Designed a live hit detection system, randomly assigned block spawning, and adaptive complexity progression based on players' performance.

LEADERSHIP EXPERIENCE

MANAGEMENT LEADERSHIP FOR TOMORROW

Washington, DC

Career Prep Fellow

January 2026 – Present

- Accepted into a selective 18-month program accelerating career growth through structured coaching, mentorship, and targeted skill-building.
- Develop business and technical acumen through technical assessments, case studies, simulations, and project work.
- Engage with partner organizations including LinkedIn, Bloomberg, and Deloitte to gain industry exposure and insight into tech-talent pathways.

COLORSTACK @ UMICH

Ann Arbor, MI

Financial Chair

August 2025 – Present

- Help organize sponsored company events and coordinated AfroTech trip by contacting sponsors, securing internships and \$18K in funding.
- Engage in ColorStack chapter at the University of Michigan seeking growth in technical skills through coding challenges and career preparation.

NATIONAL SOCIETY OF BLACK ENGINEERS (NSBE)

Ann Arbor, MI

Professional Development Chair

October 2025 – Present

- Provide mentorship to Black underclassmen aspiring to become future engineers, supporting their academic excellence and professional growth.
- Build connections with industry professionals and graduate students to gain knowledge of role opportunities and advancements in tech industry.

MICHIGAN TRANSPORTATION STUDENT ORGANIZATION (MiTSo)

Ann Arbor, MI

Member

August 2025 – Present

- Aid in managing club budget and financial records, ensuring consistent funding for travel and speaker events.
